

Enfrien

Introduction

Enfrien, a professional lighting design house was founded in 2010 in Bangalore with a vision to deliver aesthetic, sustainable and economically feasible lighting solutions.

Enfrien provides fine aesthetic value through its vast domain knowledge on the latest lighting products and specializes in providing optimal energy efficient lighting solutions using LED lights.

Vision

Ordinary spaces can be made to look stunning and of premium value by well designed lighting. Well designed Interiors with the right lighting will have a profound positive effect on the space by accentuating the architecture. Good lighting has great physiological and psychological effects on the people within that space, improving their state of mind, well being, and even their productivity.

Investment in lighting goes with the new-age financial adage 'Give a little, gain lots'. Enfrien custom designs lighting solutions to provide an appropriate elegant, and crisp appearance while keeping aesthetics, energy efficiency and vitality center-stage.

Enfrien believes that Interior is the art and Light is the feel, life and experience.
